The Red Lion PAX2A provides the maximum in application flexibility, allowing users to stock just one meter for numerous applications.

The input, total, min., max. or setpoints can be displayed on the 0.7” high 6-digit main LCD display. The main display also offers three programmable, easy-to-read colors: red, orange and green. The color change can be tied to the setpoints, providing the operator with a visual display of changing conditions in the application. The second display line is a 0.35”, high 9-digit, green LCD that can be programmed for any of the above parameters as well. The 9-digit display accommodates totalizing applications that easily exceed the normal 6-digit displays. In addition to the dual displays, the meter also offers a 3-digit programmable custom unit indicator.

APPLICATIONS

> Industrial Automation
> Factory Automation
> Process Control Applications

PRODUCT HIGHLIGHTS

> Universal Process Inputs, DC Current, DC Voltage, Process Signals, Resistance, Thermocouples or RTDs
> Universal Power Supply: 50 to 250 VAC or 21.6 to 250 VDC
> Built-in USB Port
> Meter Update Rate up to 160/Second
> Built-in Modbus Communications
> Setpoints: Dual and Quad Relay; Quad Sinking; Quad Sourcing/SSR Drive; and Dual Triac/Dual SSR Drive
> Retransmitted Analog Output
> Communications: RS232, RS485, DeviceNet, and Profibus

FEATURES & BENEFITS

> The Main display offers three programmable, easy-to-read colors: red, orange and green.
> The 9-digit display accommodates totalizing applications that easily exceed the normal 6-digit displays.
> The Red Lion PAX2A provides the maximum in application flexibility, allowing users to stock just one meter for numerous applications.
> The ideal solution for applications that require two parameters to be visualized at the same time.
As the global experts in communication, monitoring and control for industrial automation and networking, Red Lion has been delivering innovative solutions for over forty years. Our automation, Ethernet and cellular M2M technology enables companies worldwide to gain real-time data visibility that drives productivity. Product brands include Red Lion, N-Tron® and Sixnet®. With headquarters in York, Pennsylvania, the company has offices across the Americas, Asia-Pacific and Europe. Red Lion is part of Spectris plc, the productivity-enhancing instrumentation and controls company. For more information, please visit www.redlion.net.
