Crompton Panel Meters

Tyco Crompton has drop-in replacements for the popular Yokogawa Horizon and Stylist panel meters. The **Challenger** line is available in 1½", 2½", 3½" and 4½" sizes for both surface and window mounting. Standard models include a large selection of:

[DC voltmeters](#) [DC ammeters](#)
[AC voltmeters](#) [AC ammeters](#)
[Frequency meters](#)

Crompton also supplies direct replacements for Yokogawa Big Look meters. Weschler's Meter Center can customize any Crompton meter for special scaling, legends, logos, non-standard ranges, color bands or other modifications.

Kobold Pressure Sensor

The Kobold PSD Pressure Sensor offers full scale ranges of 30 to 7500 psi and $\pm 0.5\%$ FS accuracy. This versatile device includes a 4 digit LED display, analog output and switch outputs. The display and connector independently rotate for installation flexibility. Easy pushbutton setup includes selectable V or mA for the analog output, NO or NC switch operation, plus adjustable hysteresis, window and delay. The 1/4" NPT pressure port connects to compatible liquids and non-combustible/non-aggressive gases. Protection is rated IP65.

Extech Borescopes

Extech Video Borescope Cameras are useful tools for many industrial, commercial and residential inspection tasks. The **BR80** features a 17mm dia. camera head, 72° viewing angle and 2-6" focus distance. The **BR150** has a compact 9mm camera head, 45° viewing angle and 5.9-9.8" focus distance. Both models have a 2.4" color display and run on 4 AA batteries. A waterproof (IP67) camera head with 4 illumination LEDs sits at the end of a 1m gooseneck cable. Extension cables are available.
